

Special points of interest:

- Registration
- Withdraw Policy
- Lights, Camera, Research

## Advising Alerts: Announcements

### Registration is Almost Here!

Registration begins April 7th. Make sure to email your advisor if you need a hold lifted for repeat holds. Be aware that Jump Start holds need to be taken care of in person with an advisor. We recommend coming for morning walk-ins. For more Registration resources check out this [page](#)

### Withdraw Deadline is Approaching!

Be advised the last day to withdraw from a course with a 'w' is Monday, April 7th. Bring your signed form to the front desk of the S&E 370 to get the Dean's signature. If you have questions come see the AAMs in AOA 131.

### Lights, Camera, Research!

We have extended the deadline, it is now April 1st! We want to hear from STEM students on "why students who are focusing on basic research have made that decision." For more information check out this [link](#)
