## Research Week March 6-10

Research Week is an annual series of events to showcase UC Merced's important explorations into some of the world's most pressing challenges. Everyone is encouraged to participate, attend, and celebrate research at UC Merced and in the Merced community.

UROC is hosting three events and encourage students, staff, faculty, and community members to learn about and celebrate research.

## UC Merced's Professional Development Series - Resume & Cover Letters: March 10

This week's programming will address Resumes and Cover Letters and provide an enriching interactive resource for students to learn about resume and cover letter development.

Resumes and Cover Letters are a crucial first step to applying to just about any career, internship, graduate school, medical school, scholarship, research, or experiential learning opportunity.

A Career Specialist will be available to help you through the professional resume and cover letter!

## UC Merced's Professional Development Series - Discover your Career Options: March 17

This week's programming will address Career Options Discovery. The session will provide an enriching interactive presentation that will detail strategies to finding a major or career that you may find satisfying.

If you are curious about other pathways in your academic future, this is a great workshop to explore with other students!

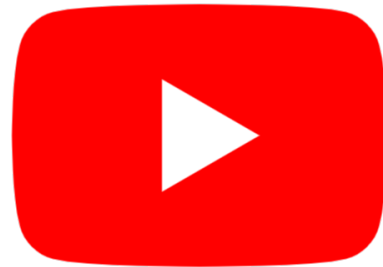

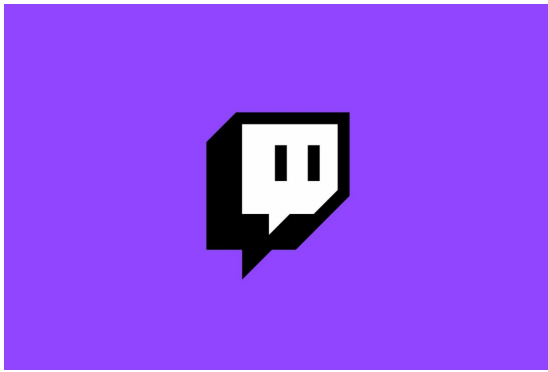

A Career Specialist will be available to help you with your questions regarding this particular topic.
